^
N.B.

Where gravestones have been placed at the graves, the ages and dates of deaths have been taken from the Gravestones. Where the dates of births & deaths are given on the stones, the ages have been calculated therefrom.

The ages & dates of deaths in a few cases differ ~~in a few cases~~ from those given in the Registry.

Where no gravestones exist, the ages and dates of deaths have been taken from the burial notes.

In some cases where the full names are not given on the stones, the full names have been taken from the Registry.

The letters G.S. used in following Registry signify the existence of a gravestone at that grave.

A list of the names which do not appear among the burial notes is placed before the Index, and those also that appear in the burial notes but in the ~~Register~~ Registry or on the stones ^{and graves}.
